

Carrefour Romania, through Carrefour Foundation,
donates 200.000 EUR to Romanian Red Cross,
to ensure medical equipment to the front line COVID-19 hospitals

Carrefour Romania and The Carrefour Foundation are committed to support the fight with the pandemic COVID-19. and donate 200.000 EURO to the Romanian Red Cross, which will be used to equip the first line hospitals, at national level, as per Ministry of Health's recommendation.

*„We are grateful to the business sector, who reacted very openly to the country needs in these times of state of emergency. It is a crucial moment, where all efforts supporting us are part of a solidarity movement without precedent, with a positive impact on reducing the effects of this medical crisis”, declares **Nelu Tătaru, the Minister of Health**. Among the hospitals which will soon receive medical equipment, at the recommendation of the Ministry of Health, there are: The Clinical Hospital for Infectious Diseases Constanta, The Clinical Hospital for Infectious Diseases and Pneumology Victor Babes Craiova, The Clinical Hospital for Infectious Diseases Victor Babes Timisoara.*

*„We are facing a period which is hard to determine in the fight with COVID and all our efforts, the ones of the business sector and of the civil society are far from being ended. The contribution of each one of us is essential in this coming period and each won battle is important by the time we successfully pass over this crisis. The cohesion between different entities is extremely necessary in this moment and it is good to know that we can count on each other”, declared **Anca Damour, Executive Board Member, Carrefour Romania**.*

*„The Red Cross is proud to further continue the convergent efforts of our partners and to fulfill such an important role and responsibility in these difficult times. We are grateful for the trust that all our partners are investing us with”, declared **Silviu Ioan Lefter, General Director, Red Cross Romania**.*

Among the medical equipment of general use that will arrive to the hospitals there are: disinfectant solutions, face masks and personal protective equipment, footwear protection, medical shields, protection glasses with indirect aeration.
